EXPERIENCE

PHP Developer

Sparkle Infotech

📅 07/2021 - Present 📍 Surat

Sparkle infotech is a leading web development company specializing in custom web applications and providing end to end services to its client globally.

- During this period I Worked with a creative and technically great team, as well as in the Australian team for CRM and in the lead management role on the platform.
- Maintain and upgrade existing websites with frameworks (Laravel, WordPress, Angular, Node Js, Vue Js) and Database (MySQL, MongoDB).
- Integrated various third-party APIs.
- Experience working in a collaborative team environment using tools like issue tracker (Jira, Trello), version control software (Git, Bitbucket), and site migration (Jenkins).
- Refactored outdated legacy code to drive continuous improvement in system design.
- Responded to customer feedback by reproducing and resolving reported issues in a timely way.
- Worked on and maintains projects in AWS core services (Lambda, CloudWatch, OpenSearch, S3 Buckets).
